

# Riding the Wave of Long-Term Care Reform

## Conference Agenda

### Day 1 Monday, October 9

#### Managed Care Expansion Forum

In his February 2006 State of the State Address, Wisconsin Governor Jim Doyle announced his goal to expand the Family Care program and promote the integration of long-term care and health care services over the next five years. DHFS has awarded grants to ten groups (consortia) to carry out intensive planning activities to achieve this goal. This half-day forum is intended for consortium members to connect with other consortia and for a broader audience interested in learning about the activities of the consortium in their region. This forum is designed to allow planning consortia members to highlight components of managed care expansion, to share their progress in planning, and identify issues of mutual concern. The format will include time for questions and discussion.
